## OBJECTIVE

I am an SDET with 3 years of experience in an IT services and technology firm, looking for a challenging career and opportunity, where I can demonstrate my skills and abilities to produce efficient and suitable solutions. And also explore learning opportunity that can help my growth in the technology and in turn help me work more effectively.

## SKILLS & ABILITIES

- Programming languages: Java with Object Oriented Programming approach.
- Test automation frameworks: Selenium, TestNG, BDD Cucumber
- Build/Test management tools: Maven,  Jenkins, JIRA, Blazemeter
- Testing tools: TestNG,  Post Man, SoapUI, Jmeter
- Version control systems: Git
- Database technologies: My SQL
- Agile methodologies: Scrum, Kanban

## EXPERIENCE

**SENIOR SOFTWARE ENGINEER - TEST**

AUGUST 2023 – Present

- I have expertise on monitoring , documenting , and designing Test framework that challenges the application design. I have hands -on with all the areas of SDLC. Experienced in Agile development methodology over the period I worked in the project.
- Experienced in Continuous testing, Debugging, and managing the test results and documenting the observations and end-to-end analysis on various test executions.
- Experienced on various Test monitoring and debugging tools like Newrelic , Splunk and also for the analysis on test metrics.

- Responsible for raising , tracking and managing Bug/Defect through Defect management tools and brought solutions to make the system work more efficiently in the project.

## ENGINEER

APRIL 2021 – AUGUST 2023

- Experience in the area of Software Testing (Automation for Both Functional and Non-Functional) with a good understanding of Test Planning, Test Design, Test Execution and Defect Reporting & Tracking.
- Experienced in Automating Web Application Testing using Selenium and TestNG frameworks.
- Experienced in SDLC and STLC Process.
- Good Knowledge in Java with Objected oriented Programming Skills , ,problem solving ability and Data structures and Algorithms.
- Experienced in creating and maintaining Integration, Regression, Automation Suites for performance testing like load , stress and endurance tests using Jmeter.
- Taken Complete Ownership of testing activities for the most business critical Applications in the project.
- Experience in Tools like git and Jenkins.
- Responsible for writing SQL queries for accessing the data from Database.
- Worked with software development and testing team members to design and develop the Application to meet client requirements.
- Coordinated with UAT team by providing them with test cases and test data.

## ENGINEER - TRAINEE

DEC 2020 – APRIL 2021

- Good Experience in Java and Object Oriented Programming
- Experience in BDD (Behavior Driven Development) - Cucumber Test Automation Frameworks
- Involved in learning Best Coding Practices and Test Fundamentals
- Developed test code in Java Language using Selenium and TestNG framework.
- Experience in API Testing through Postman and SoapUI Tools.

**EDUCATION**

**SATHYABAMA INSTITUTE OF SCIENCE AND TECHNOLOGY**

I have completed my Bachelor Degree in Computer Science and Engineering with 8.3 CGPA.

**ACIEVEMENTS**

- ISTQB certified  - Completed Foundation Level Testing Examination.
- Received multiple Spot On Awards for my work in delivering and maintaining quality especially during the Business and revenue generating events for the client.
- Received multiple Team awards for supporting my team and taking responsibilities voluntarily.
